Dear Valued CRS Customer,

Without doubt you have heard of the Jubilant DraxImage Inc. significant price increase to MAA and DTPA. As a result, the CRS price of MAA has increased 2000% and DTPA 500%.

It is the intent of CRS Nuclear Services to communicate with you any relevant information regarding this issue. With that said, I would like to forward you an email written by Mark Tulchinsky, MD, FACNM. Dr. Tulchinsky is an active member of the SNMMI and a Fellow of the American College of Nuclear Medicine. His email request is as follows:

Dear, Colleagues!

The price of MAA and DTPA has increased dramatically, about 2000% and 500%, respectively. Our Society, SNMMI, to the best of my understanding, provided membership with no information about it. I just came back from the Mid-Eastern SNMMI Chapter meeting where I spoke on V/Q lung scintigraphy. I found that most of the physicians have not heard about it and were flabbergasted with the sheer magnitude of the price hike. I wrote to the President of Jubilant DraxImage (JDI), Mr. Martyn Coombs, see emails included below.

If you like to express your opinion regarding this price hike (what do you think it will do to the patient care, V/Q scan volume, your practice?), I would encourage you to write to:

- 1. Mr. Martyn Coombs, The President, JDI. (via secretary, Gina Sirois <gsirois@jdi.jubl.com> or to his email address <martyn_coombs@yahoo.co.uk>, and best to both addresses)***
- 2. Dr. Gary Dillehay, The President of SNMMI, (via email <g-dillehay@northwestern.edu>)***
- 3. Mark Tulchinsky, MD, Concerned Member of SNMMI (mark.tulchinsky@gmail.com).***

Respectfully submitted for your consideration, Mark

Please feel free to write to any or all of the above regarding this ridiculous, never before seen price increase.

Regards,

Daniel T. Guarasci, MS, PharmD, BCNP, DABSNM
President and CEO
