

December 3, 2019

Dear Healthcare Professional and Valued Customer,

I am writing this letter to inform you of changes which will take place at AnazaoHealth in 2020. Our company has continued to experience significant cost increases related to raw materials, product quality testing, transportation, and product shortages. These costs have particularly impacted our Nuclear Medicine division.

In addition to increased raw materials costs, AnazaoHealth has experienced major financial impacts resulting from new regulatory requirements. We have now come to a point that hard decisions must be made in order to meet our commitment to deliver high-quality products across all lines of business.

Effective January 1, 2020, AnazaoHealth will no longer dispense radiopharmaceuticals compounded with I-123 and In-111. AnazaoHealth will continue to provide the following:

- AminoProtect™
- Sincalide/CCK*
- ACD Solution
- Aminophylline (Commercial Product)
- Dipyridamole (Commercial Product)
- Dipyridamole (Compounded)*
- Potassium Perchlorate
- P-32 Sodium Phosphate
- I-131 compounds
- Non-radioactive Reagent Kits
 - Bicisate (ECD)
 - Exametazime (HMPAO)
 - Mebrofenin
 - Pentetate (DTPA)
 - Pyrophosphate
 - Red Blood Cell (RBC)
 - Succimer (DMSA)

**Only available during commercial shortage*

This decision was not easy to make. AnazaoHealth has provided an important service to the nuclear medicine community since 1997. Thousands of patients have gained access to custom radiopharmaceuticals that were tailored to specific patient need, unavailable on the market, on shortage, or abandoned by drug manufacturers. Our pharmacy has been one of the only providers of patient-specific custom compounded radiopharmaceuticals in the country. It is very unfortunate that this decision will negatively impact patient access to needed diagnostic and therapeutic medications.

For the transition of your In-111 Oxine patients, we highly recommend you reach out to BWXT who has supplied high quality API to AnazaoHealth for years. BWXT can be contacted at 1-800-267-6211 or by email at hmurphy@bwxt.com. Your Account Manager is also available to answer any questions you may have. Additionally, please feel free to contact our Customer Service Department by calling 800.995.4363 EXT 2 or by email at customerservice@anazaohealth.com.

Sincerely,

TJ Bresnahan
President
AnazaoHealth
